How to use this edition

This printable edition lists all 1,072 names of the Adya Mahakali Sahasranama in sequence, with Devanagari, a common English spelling, the IAST transliteration, and a short English meaning for each name.

Each name also has its own page on the website, with alternate spellings and a longer explanatory note. Use the site for search and cross-references; use this file for offline reading, printing, and chanting support.

Transliteration note: the "common spelling" column uses the romanization most readers type (for example *Shmashana Kalika*), while the IAST column gives the diacritic form (*Śmaśānakālikā*). Sanskrit names take several valid English spellings; the website lists them on each name page.

This is a devotional reference compiled for study. It is not a critical edition and does not replace traditional instruction or lineage guidance.
